Kingfisher Primary School Toilet Refurbishment

The Kingfisher Primary School Toilet Refurbishment incorporated a complete transformation of dated and tired looking toilet blocks. We worked very closely with the school trust's surveyor to ensure that we provided a refurbishment that they envisaged for the school. They had a preferred design in mind which we helped to deliver and turn their vision into a reality. As you can see from the accompanying images, the new toilets had a unique and stylish look and are not a common school design or layout. The trust have a passion to provide an education facility that provides a home from home environment.

Works Carried Out During Term Time

To ensure that project could be carried out and completed within a tight timeline, the works were carried out during term time. All efforts were made to cause as little disruption to the school as possible. This included temporary toilets being provided while we occupied the school toilets to carry out the works.

The Trust were delighted with the final result and the time in which the project was completed. They have asked us to carry out two additional toilet refurbishments in 2022. We built a great relationship with the school staff and they were fantastic to work with which meant that the project went very smoothly with the site manager being particularly helpful.
