Dover Primary School Window Installation

We carried out this Dover Primary School Window Installation during term time and two weekends. The existing Crittal windows were the original windows which were installed when the school was first built and due to the windows being single glazed, they were not as efficient as modern double glazed windows. The new windows meant an increase in the building's thermal efficiency, improved security as well as enhancing the look of the building.

Hall Windows

The original hall windows had high level openers which were operated by window winders. The winders tended to break on occasions and proved a problem. After speaking with the school's site manager, we redesigned the windows to allow larger openers at the bottom providing an easier opening solution. No more broken winders with constantly open or closed windows.

When Could We Carry Out The Installation During a Busy Period?

The school was awarded the funds to update the windows after the summer holidays but were keen to have the windows installed as soon as possible. Unfortunately, we were already fully booked with throughout the October half term. We held discussions with the school and agreed that we could install the windows during term time and at weekends. The site manager kindly opened up the school in the mornings and locked up in the afternoons at the weekend.

Building Services We Provide In Schools

The building services we provide include smaller refurbishments through to extensions and new builds. We cover all the building as well as glazing services that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website case studies to see projects we have recently completed.

Glazing Services We Provide In Schools

We carry out works from window and hinge repairs through to complete aluminium and uPVC window and door installations.

Contact Waller Building and Glazing Services

Based in Sittingbourne, Kent, we carry out works throughout the south east of England.-If you would like a quotation on any size of building project, please contact us. Telephone – 01795 424435 Additionally email mark@wallerservices.com
