Primary School Canopy Installation

We installed this canopy for a primary academy in Romford, Essex. Although the school is a recent build, they needed to provide additional areas for external learning. Primary school canopy installations are becoming increasingly popular. They provide an additional learning space for younger pupils and can be of a benefit all year round. Providing shelter in the winter and shade in the summer, canopies can be a low cost solution, adding covered areas for a range of purposes. Whether being used for learning activities or as an additional shelter during break time, canopies come in a range of styles and colours to complement any school.

Installation

The new canopy only took three days to install. As well as being a cheaper alternative, canopies are quick and easy to install. We carried out the work during a school half term holiday with no disruption to the school.

Building Services We Provide In Schools

The building services we provide include smaller refurbishments through to extensions and new builds. The services we provide include anything that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website case studies to view projects that we have recently completed.

Glazing Services We Provide In Schools

In addition to building works, we also carry out works from window and hinge repairs through to complete aluminium and uPVC window and door installations.
