School Science Classroom Refurbishment

After carrying out many projects for this client, they asked us to look at a school science classroom refurbishment project. The school wanted to completely refurbish two of their science classrooms, however they didn't have the budget to achieve this. Working with the school ,we pruposed a new configuration of the classrooms. We created a new design which improved the layout of the science rooms to form an improved teaching experience for the students.

New bespoke student and teaching work benches were installed, complete with new gas taps and power sockets. The finishing touches were made including new vinyl flooring and decoration throughout.

Building Services We Provide In Schools

The building services we provide include smaller refurbishments through to extensions and new builds. The services we provide include anything that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website case studies to view projects that we have recently completed.

Glazing Services We Provide In Schools

In addition to building works, we also carry out works from window and hinge repairs through to complete aluminium and uPVC window and door installations.
