Factory Toilet and Canteen Refurbishment

A local company asked us to carry out factory and canteen refurbishment works in their UK base. We had previously refurbished a staff toilet area and changing rooms and they were so pleased that they asked us to look at more works.

Toilet Refurbishment

The original toilets were completely stripped out and new facilities installed. The original tiles were removed and replaced with vinyl flooring and multi wall cladding. A new hand wash station was installed as well as new cubicles and urinals being added. A new suspended ceiling was installed and hand dryers were installed.

Canteen and Rest Room

Along with the toilet refurbishment, we also refurbished a canteen and rest room area. We reconfigured the canteen which was originally an open canteen leading into the factory. With the installation of dividing walls, the new canteen became a separate room with kitchenette where hot refreshments could be prepared. The staff now had an area away from the factory where they could relax during their breaks. In addition, we also refurbished a medical room which was separated with divisional walls.

For more examples of commercial works carried out by Waller Building and Glazing Services please click on the following link-https://wallerservices.com/commercial-clients/

Commercial Building

Commercial building is a growth area for Waller Building. We work in the education and healthcare sectors. The retail sector is also an area of growth. This is due to many warehouse developments in the south east. We install toilet and kitchen areas. We also install commercial window and doors. For examples of our services, take a look at our commercial glazing case studies.

Waller Building

In the last 25 years, Waller Building has worked on many commercial projects. Our reputation is growing fast. The services provided range from refurbishment through to extensions and complete new builds. Additionally our glazing department repairs windows and glass. We also install uPVC and aluminium windows and doors. One of the major areas that we are continuing grow is window replacement in schools. Waller Associates is Fensa, Chas, Constructionline and safecontractor approved. We are also a Kent County Council approved contractor. We would also be happy to give you a price for any refurbishment works.
