London School Toilet Refurbishment

This London school toilet refurbishment was undertaken over the school summer holidays. Two toilet blocks had seen their best and were getting to the stage where the school would have to them refurbished. When funding was made available, the school approached us to refurbish the toilets as we had previously carried out similar works for the school previously.

Boys and Girls Toilets

Each toilet area was refurbished throughout which included new flooring, cubicles and toilets with reducting to provide a modern look. The school requested that the urinals in the boys toilets be replaced with toilet cubicles which, long term are easier to keep clean. Additionally, we added new vanity units with sinks. The final touch was decoration throughout providing the toilet areas with a new, modern and clean environment.

Staff Toilets

As well as the student's toilets, we refurbished the staff toilets. A new toilet and vanity unit were installed with decoration throughout.

Building Services We Provide In Schools

The building services we provide include smaller refurbishments through to extensions and new builds. The services we provide include anything that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website case studies to view projects that we have recently completed.

Glazing Services We Provide In Schools

In addition to building works, we also carry out works from window and hinge repairs through to complete aluminium and uPVC window and door installations.
