Open Plan School Toilets

The school asked us to reconfigure two separate toilets into Open Plan School Toilets. The existing toilets took up too much room and felt very cramped. They asked if we could provide an open plan alternative that opened out into a classroom.

We removed the two walls and created three, floor to ceiling unisex, toilet cubicles. The cubicles needed to be floor to ceiling providing privacy because they faced onto open classroom. New flooring was laid and the area was decorated throughout. In addition, the new facility included an open plan area where the three tapped, trough vanity unit was situated.

The result was an open spaced area with private toilet cubicles.
