## High Level School Window Installation

We were awarded the high level school window installation works as part of an ongoing project to upgrade all of the windows at Royal Park Primary Academy. In recent years the school has been replacing the old original single glazed Crittal windows. The current phase of works was to upgrade all of the high level classroom and corridor windows. As a result the school's energy efficiency would be improved and lower the cost of future heating bills.

## Teleflex Window Winders

Due to the height of the windows, teleflex window winders were installed to ensure that the windows could be opened safely. Each window that opened originally was replaced by a new opening window controlled with the teleflex system. In addition, the windows also had trickle vents installed which allows natural airflow throughout the building preventing moisture build up and potential mould spores.

## Building Services We Provide In Schools

The building services we provide include smaller refurbishments through to extensions and new builds. The services we provide include anything that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website case studies to view projects that we have recently completed.

## Glazing Services We Provide In Schools

In addition to building works, we also carry out works from window and hinge repairs through to complete aluminium and uPVC window and door installations.
