Girl's School Toilet Refurbishment

We carried out this girl's school toilet refurbishment during the school summer holidays. After an open tender process, we were announced as the successful contractor for refurbishing two large toilet areas. Both the maths and science toilet blocks requied updating with full refurbishments. Both areas were completely stripped out and new flooring was laid. For additional privacy, the school requested that the new cubicles be floor to ceiling high with a total of 31 new cubicles in total being installed over the 2 sites.

Bright Open Feel

The school wanted an open feel to the toilets and, in addition chose light blue for the cubicles and doors to provide a bright atmosphere. At the centre of both toilet blocks, a large circular trough sink was installed which can facilitate up to eight pupils at one time. Along with sensor taps, the sink contained 8 soap dispensers.

To complete the look of each toilet block, white hygienic panels were applied to the walls, suspeneded ceilings and LED lighting installed.

Building Services We Provide In Schools

The building services we provide include smaller refurbishments through to extensions and new builds. The services we provide include anything that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website case studies to view projects that we have recently completed.

Glazing Services We Provide In Schools

In addition to building works, we also carry out works from window and hinge repairs through to complete aluminium and uPVC window and door installations.
