Sidcup Academy Toilet Refurbishment
Creating Modern, Hygienic Washroom Facilities for Early Years Education

The Kemnal Academies Trust appointed us to refurbish two washroom areas at Royal Park Academy in Sidcup, Kent, creating a fresh, modern and practical environment for its youngest pupils.

As the existing facilities had reached the end of their serviceable life, the academy needed a comprehensive refurbishment to improve the appearance, hygiene and functionality of the washrooms. With nursery-aged children between three and five years old using these facilities, we focused on creating clean, bright and durable spaces that could meet the everyday demands of a busy educational setting.

A Complete Washroom Transformation

The project involved the full refurbishment of two washroom areas, one of which also included an adjoining changing facility. We upgraded both spaces with modern, high-quality finishes and fittings to create a consistent, refreshed appearance throughout.

First, we removed the existing toilets, cubicles and trough sinks and replaced them with contemporary alternatives, giving the washrooms a brighter, more modern look for pupils and staff. We also installed new flooring throughout and added hygienic wall cladding, providing easy-to-clean surfaces that support effective day-to-day maintenance.

Finally, we installed new lighting to complete the transformation, enhancing the overall appearance of both spaces and helping to create a clean, welcoming environment for the academy's youngest children.

A Practical, Durable Solution for Education

In an early years setting, washroom facilities must withstand frequent daily use while remaining hygienic, safe and easy to maintain. With these priorities in mind, we combined modern fittings with durable finishes and practical surface materials to deliver a solution suited to the needs of a busy school environment.

As a result, the refurbishment has given Royal Park Academy's washroom and changing facilities a fresh, contemporary look, helping to create a more pleasant and functional environment for children and staff alike.

The Result

Overall, we transformed two well-used washroom areas into modernised facilities better suited to the needs of a busy early years educational environment.

By replacing ageing fittings, upgrading the flooring, introducing hygienic wall cladding and installing new lighting, we delivered a comprehensive improvement that balances appearance, durability and ease of maintenance.

As a Kent-based building and glazing contractor, we understand the importance of delivering practical, high-quality refurbishment projects that support the day-to-day operation of schools and academies. Through projects like this, we help educational settings maintain functional, welcoming spaces that meet the needs of their pupils and staff.
