Tarmac Repairs and Associated Works

This school was having a problem with tree roots breaking up a large section of their playground. We were tasked with the removal of the offending trees, breaking out the area of defective tarmac and laying a new wearing course and top coat of tarmac. -Whilst on site, we were also asked to make Tarmac-repairs -to sections of the paths around the school. These areas had started to crack and break up.

All of these works were carried during the October half term (around the time of the recent storm!). They were completed in good time and to the clients satisfaction.

Waller Building Services in Schools

In the last five years, Waller Building has worked in over 125 schools. Our reputation in the education sector is growing fast. The services we provide include smaller refurbishments through to extensions and new builds. Waller Building is a Fensa, Chas, Constructionline and Safecontractor approved company. We are also a Kent County Council approved contractor. All of our workmen are DBS checked. This means you can be assured that our staff are suitable to work in your school. You can also be confident that we are a company that is built on trust. If your school is planning any size of project, we would be delighted to provide you with a quotation. Furthermore we would be happy to price any maintenance or refurbishment works for you.

Building Services We Provide

We cover all of the building as well as glazing services that a school may need. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Furthermore the glazing division carries out window repairs. We also install uPVC and aluminium windows and doors. View our case studies to see projects we have recently completed on our website.
