Window and Door Installation

After seeing our work at a neighbouring school, -Riverview Infant School requested we carry out a new uPVC window and door installation. With the safety of the staff and pupils in mind we recommended fitting tilt and turn windows. This was due to a walkaway directly outside of the classrooms. Consequently the windows also open fully inwards if required.- Due to the amount of use on a daily basis, we advised that commercial aluminium doors were fitted. One of the doors needed a larger opening to meet D.D.A regulations. This necessitated forming a new door opening in the brickwork. The final result modernised and enhanced the look of the building and increased the thermal efficiency of the classrooms and will lower future heating costs.

Waller Glazing Services

In the last five years, Waller Building and Glazing has worked in over 125 schools. Our reputation in the education sector is growing fast. The glazing services we provide include smaller repairs through to completed UPVC and aluminium window and door installations. Waller Building and Glazing is a Fensa, Chas, Constructionline and Safecontractor approved company. We are also a Kent County Council approved contractor. All of our workmen are DBS checked. This means you can be assured that our staff are suitable to work in schools. You can also be confident that we are a company that is built on trust. If your school is planning any size of glazing project, we would be delighted to provide you with a quotation. Furthermore we would be happy to price any maintenance or refurbishment works for your school.

Glazing Services We Provide in Schools

We cover all the building as well as glazing services that a school would require. This includes, glass repairs and window installs. We also install repair handles, hinges and double glazed units. Check out our website case studies to see projects we have recently completed.
