Rochester School Window Replacement

Rochester School Window Replacement. A school requested that we carry out school window replacement to one of their main buildings.-Waller Building has carried out may projects for the school previously. We were delighted when they asked if we could carry out a glazing project. They required us to install uPVC double glazed windows. The new windows were to replace the existing wooden windows. The new windows have transformed the look of the building. The upgrading of the thermal efficiency rating is also important. This results in less heat loss and saving money. Additionally, students can now work in a more modern working environment.

Teleflex window winders were also fitted to high level windows. This means that the windows can be easily opened and closed. This increases airflow during warm conditions.

Waller Glazing Services

In the last five years, Waller Building and Glazing has worked in over 125 schools. Our reputation in the education sector is growing fast. The glazing services we provide include smaller repairs through to completed UPVC and aluminium window and door installations. Waller Building and Glazing is a Fensa, Chas, Constructionline and Safecontractor approved company. We are also a Kent County Council approved contractor. All of our workmen are DBS checked. This means you can be assured that our staff are suitable to work in schools. You can also be confident that we are a company that is built on trust. If your school is planning any size of glazing project, we would be delighted to provide you with a quotation. Furthermore we would be happy to price any maintenance or refurbishment works for your school.

Glazing Services We Provide in Schools

We cover all the building as well as glazing services that a school would require. This includes, glass repairs and window installs. We also install repair handles, hinges and double glazed units. Check out our website case studies to see projects we have recently completed.
