Single Storey Extension

The main objective of this single storey extension project was to significantly increase the living space of a large family. This included the installation of a flush floor shower room and two large bedrooms. The initial phase of the works involved the demolition of a single storey brick built extension. Additionally this included the removal of the concrete roof. Consequently we commenced work on site in May, 2008. We handed over the new extension in September, 2008.

Waller Building Services

Established in 1993, Waller Building Services has been growing ever since. We regularly work in the residential and commercial sectors. Clients include schools, local authorities and private customers. Our building services consist of smaller refurbishments through to extensions and new builds. Waller Building Services is a Fensa, Chas, Constructionline and Safecontractor approved company. We are also a Kent County Council approved contractor.-You can be confident that we are a company that is built on trust. If you are planning any size of building project, we would be delighted to provide you with a quotation.

Waller Glazing Services

Waller Associates introduced Waller Glazing Services in 2010. The glazing projects range from glass repairs through to complete window and door installations. Our customers are commercial and residential. You can find example of glazing projects on our website. Equally to you can also see our building case studies on the website.
