Special Needs Bungalow, Canterbury

Client: Private Client: Special Needs Bungalow New Build

Construction Details:

View this case study on WallerServices.com

We commenced the construction of a new single storey property in Canterbury, during October, 2006.

The property has been designed and built for a local authority to cater for the special needs of the disabled and contains facilities such as a flush floor shower room and low level disabled kitchen. The project was completed and handed over in March 2007.

The photos show the project both during its construction and at its completion:

Building on trust... together
